PROFESSIONAL SUMMARY

Competent and innovative Software Developer specializing in building scalable, accessible, and high-performance web applications using React.js, TypeScript, and Next.js. Experienced in developing reusable component libraries, implementing responsive user interfaces, integrating REST APIs, and collaborating with cross-functional teams in Agile environments. Strong experience in frontend architecture, design systems, accessibility standards, performance optimization, and maintainable code. Hands-on experience contributing to React Native applications and FastAPI-based backend integrations while supporting end-to-end product delivery.

TECHNICAL SKILLS

Frontend	React.js · Next.js · TypeScript · JavaScript (ES6+) · HTML5 · CSS3 · SASS · Server-Side Rendering (SSR)
UI Libraries	Material UI · Ant Design · Tailwind CSS · Bootstrap · Recharts · Framer Motion
Architecture	Component-Based Architecture · Redux · Context API · API Integration · State Management
Mobile	React Native
Backend	FastAPI · Python · RESTful APIs · PostgreSQL
Cloud & AI	Google Cloud Platform (GCP) · Google AI Services · Ollama
AI Dev Tools	GitHub Copilot · Claude · v0
Tooling	Git · GitHub · Vite · Jest · React Testing Library · Jira · Figma · Netlify

CORE COMPETENCIES

Frontend Architecture · Component Libraries · Design Systems · REST API Integration · Responsive Design · Accessibility (WCAG 2.1) · State Management · Performance Optimization · Agile Development · Code Review

PROFESSIONAL EXPERIENCE

Software Developer

Apr 2025 – Present

Visiblestars Technologies | Riyadh, Saudi Arabia

- Delivered frontend features across multiple sprint cycles using React.js, TypeScript, Redux, and Material UI; leveraged Vite for optimized builds and AI-assisted tooling to accelerate development velocity.
- Contributed to the development of a cross-platform React Native application featuring analytics dashboards and interactive visualizations built with Recharts and Framer Motion.
- Designed and implemented RESTful APIs using FastAPI for scalable data processing and third-party integrations.
- Drove frontend engineering quality through code reviews, enforcing WCAG 2.1 accessibility standards, and establishing best practices in component architecture and design system usage.

Software Developer

May 2024 – Apr 2025

CloudNow Technologies Pvt Ltd | Chennai, India

- Engineered enterprise web applications with React.js, TypeScript, and Tailwind CSS; built scalable, reusable component libraries with Recharts visualizations and Framer Motion animations to ensure product-wide UI consistency.
- Led development of Allaboard, a responsive employee onboarding platform featuring WCAG 2.1-compliant UI components; contributed to code reviews and knowledge sharing across the frontend team.
- Built and maintained the company website using HTML5, CSS3, Bootstrap, and jQuery, ensuring cross-browser compatibility and responsive design.

- Improved application reliability through unit and component testing with Jest and React Testing Library, iterative defect resolution, and sprint-based delivery.

Junior Software Developer

May 2023 – May2024

Fossfreaks Pvt Ltd | Chennai, India

- Developed accessible frontend features using React.js and Next.js (SSR); integrated REST APIs and built Recharts data visualizations applying hooks, component lifecycle patterns, and responsive design principles.
- Contributed to code reviews with senior engineers, applying best practices in component architecture, accessibility, testing, and code quality.
- Built strong foundations in state management and UI development; participated in Agile sprint planning and feature estimation workflows.

KEY PROJECTS

Offline Enterprise AI Assistant — *Next.js · TypeScript · FastAPI · Ollama · AI Knowledge Assistant*

- Developed a privacy-first AI assistant enabling organizations to securely interact with internal knowledge bases without relying on external AI services.
- Built a responsive web application using Next.js and TypeScript, providing conversational search, document exploration, and AI-assisted knowledge retrieval.
- Integrated Ollama to run open-source large language models locally, ensuring complete data privacy and offline availability across enterprise environments.
- Designed FastAPI services for document processing, retrieval workflows, and AI request orchestration; implemented automated Business Requirement Document (BRD) generation to streamline project documentation workflows.
- Developed conversation history, document-based question answering, and model management capabilities to support enterprise productivity use cases.

Crux 360 — *AI-Driven Survey Platform · React.js · TypeScript · FastAPI · PostgreSQL · Google Cloud AI*

- Developed a responsive and accessible AI-powered survey platform using React.js, TypeScript, and Material UI, enabling real-time data collection with a clean and intuitive user interface.
- Integrated Google Cloud AI services for automated sentiment analysis, delivering intelligent insights and analytics dashboards to business stakeholders.
- Designed and built scalable REST APIs with FastAPI; optimized PostgreSQL queries for faster data retrieval and improved overall platform performance.

Crux — *AI-Driven Analytics Mobile App · React Native · Recharts · Predictive Analytics*

- Developed a cross-platform mobile application using React Native, delivering real-time analytics dashboards with interactive charts across iOS and Android.
- Implemented AI-based recommendation features and sentiment analysis to evaluate user feedback, along with predictive analytics for identifying key business patterns and trends.
- Designed interactive data visualization dashboards using Recharts, enabling stakeholders to monitor KPIs and make data-driven decisions efficiently.

Allaboard — *Employee Onboarding Platform · React.js · TypeScript · Ant Design · Tailwind CSS*

- Developed a web-based employee onboarding system to streamline hiring workflows; built a responsive UI with React.js, TypeScript, Ant Design, and Tailwind CSS ensuring a seamless experience across all devices.
- Developed a reusable component library and integrated a design system to enforce UI consistency and reduce duplication across the platform.
- Ensured WCAG 2.1 compliance including keyboard navigation, ARIA roles, and screen reader support; achieved high test coverage with unit and component tests using Jest and React Testing Library.

EDUCATION

Bachelor of Engineering (Computer Science and Engineering)

SRM Valliammai Engineering College, Chennai, Tamil Nadu, India

Graduated: 2023 | CGPA: 8.64 / 10

CERTIFICATIONS

React Complete Developer Course (Udemy) | React.js Crash Course (Udemy) | SQL and Relational Databases (IBM) | CSS and Bootstrap (Udemy)
